LAUCALA ISLAND, FIJI

LAUCALA ISLAND RESORT

Laucala is a paradise of lavish pampering, and a forward-thinking property of environmental and cultural sensitivity.

Opened as a private island resort in 2008, Fiji's Laucala is a far-flung paradise of lavish pampering, and a forward-thinking property of environmental and cultural sensitivity. The residences, featuring beautifully crafted interiors giving way to stupendous ocean vistas, are nestled into the landscape, hillsides and white sand beaches. All buildings and recreational amenities, the 18-hole championship golf course, livestock breeding center and organic vegetable and fruit farm bring together the vastness of a 12 square-kilometer island. Five restaurants and bars offer a choice of cuisine, while a nearby Cultural Village displays a proud island history. Recreational activities include horseback riding, fishing and reef diving with instructors. A fleet of yachts is available; private planes provide convenience for arrivals and departures.
